Section Council Meeting February 13th 2008

Date: Tue, 8 Jan 2008 16:52:48 -0800 (PST)
From: Walter Desmond <proforgs@sbcglobal.net>
Subject: SAVE THE DATE: Science Fair Judging April 2
To: ProfOrgs@sbcglobal.net

Dear Professional Organization Representative:

The 2008 Greater San Diego Science and Engineering Fair will take place in early April, with Professional Organization judging on Wednesday, April 2.

We appreciate your organization's past participation in the Fair, and look forward to seeing you again in 2008. Please verify by return email that you will continue to be the GSDSEF contact for 2008, or refer us to the person whom we should contact.

The judging location, times and process will be as for the past few years, and we will send you several reminders with details as we get closer to the Fair.

In the meantime, you can get information from the fair website www.gsdsef.org, or at any time by email to ProfOrgs@sbcglobal.net

Your judges will be pleased to know that online registration this year will make abstracts electronically available before the Fair for the first time. Also for the first time, projects may be done by teams (two-person), in senior division only.

Your members may wish to contribute their expertise in two areas where we need help:

1. There is always a need for judges for the morning General Judging, where all projects are viewed and category awards given. Volunteers sign up at <http://www.gsdsef.org/judges/judges.shtml>
2. We also need help at the eight Screening Fairs, when 10,000 initial entries in the Science Fair process will be screened and selected for participation in the April Fair. Although done in the absence of the students, screening uses similar criteria and standards as the final judging. Thus the experience and expertise of your members who are unable to judge in April can still contribute to this critical preliminary step in the process. Volunteers who wish to help in the January and February Screening Fairs should contact Paul Pakus at Pakus@cox.net.

Thank you and your organization for supporting our future scientists and engineers.

Walter Desmond, Adina Sobo and Karen Rodriguez

Section Council Meeting February 13th 2008

Region VI Chairs,

Next Saturday, Feb 16th, at the Boeing site in Huntington Beach, CA, AIAA is sponsoring its yearly Public Policy Colloquium to help prepare people for CVD as well as offer an opportunity for anyone within AIAA to learn more about Public Policy in general. This year we will be having presentations by PP members from AIAA HQ as well as from incoming AIAA President George Muellner.

Hopefully you have already heard about this and have conveyed the information to your members. I am including the meeting info and asking to please route it again. There is lots of good information that comes out of this meeting and if you are planning on sending people to CVD, the planning really begins here.

Please feel free to contact me with any questions you have. This is a good lead in for anyone interested in CVD as well as overall AIAA public policy and where its support is being directed.
